

I am writing you to explain the benefits I receive from listening to XM Satellite Radio and its instant traffic and weather channels, not only in my area but also in other areas that I travel too. I choose to subscribe to XM Radio in order to get the variety and quality that are not available in elsewhere. I pay for these services and I feel it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I am urging the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve.
